

Environmental, Social & Governance (ESG)

In line with our purpose to "enable life sciences companies to bring impactful breakthrough therapies to market faster," we take our responsibility to society seriously.

We are committed to taking action on the issues that matter most to our business and stakeholders. At Azenta, we approach ESG issues in a holistic manner, integrating socially responsible and sustainable practices into all aspects of our business. Our focus on sustainability guides the way we do business, benefiting the environment and society on a global scale. We are committed to taking deliberate actions to address sustainability issues, both to support the well-being of future customers, colleagues, and communities and to strengthen our business for the long term.

Our approach to corporate social responsibility is centered around three key pillars that align with our business model, strategy, and values. Our focus on Environmental Protection, Social Impact, & Responsible Operations allows us to create long-term value by providing high-quality products for our customers, creating a fulfilling work environment for our colleagues, delivering solid returns for our shareholders, making a positive impact on our communities, and reducing our environmental footprint. By prioritizing these areas, we believe we can have the most significant impact. Above all, our commitment to being a responsible corporate citizen has been a hallmark of our Company and will continue to be critical to our continued success.
